

Technical data sheet

Transmitter:	orbit
Dimensions:	143 x 72 x 34 mm (5.6 x 2.8 x 1.4")
Antenna:	internal
Activation:	button combination
STOP function:	STOP impact switch
Housing material / protection class:	plastic; IP 55
Operating elements:	8 single-step push buttons
APO (Automatic Power-Off):	yes (standard: 15 min after last command input)
Bank switch:	yes (optional)
Vibration alarm:	yes
Temperature range:	-25 °C ... +70 °C (-13 °F ... +158 °F)
Frequency range:	2.4 GHz
Frequency management:	2.4 GHz technology (fully automatic)
LEDs:	operating / battery status
Battery type / continuous operating time:	Rechargeable Li-ion exchange battery BA402_; up to 30 h
Charger, typical charging time:	QA402600 (AC) / QD402300 (DC), approx. 3 h
Weight including battery:	300 g (0.6 lbs.)
